## **OSRAM and LLFY partners present LED lighting solutions in Lighting Fair 2009 Tokyo**

**OSRAM Opto Semiconductors announced its participation with five LED-Light-for-You (LLFY) partners in the International Lighting Fair 2009 Tokyo, to showcase a wide range of innovative LED solutions and related technologies for solid state lighting applications. The Lighting Fair is Japan's largest illumination exhibition held from March 3 to 6.**

LED-Light-for-You ([www.ledlightforyou.com](http://www.ledlightforyou.com)) network, which combines the skills of nearly 70 certified partners around the worldwide and 33 of them in Asia, was set up on the initiative of OSRAM Opto Semiconductors in 2006. The network serves solid state lighting manufacturers and lighting planners with expert support in areas essential to LED lighting solutions -- optics, thermal management and electronics.

"We found that customers in general encountered technical difficulties in optics, thermal management and electronics when they build new illumination products. LED-Light-for-you provides a platform for them to get technical support and know-how in designing, planning and implementing LED lighting systems. Ultimately, customers' ideas can be converted into marketable lighting solutions more quickly and more efficiently," said Mr. Kiyoshi Komatsu, Director of OSRAM Opto Semiconductors in Japan.

In International Lighting Fair 2009 Tokyo, OSRAM Opto Semiconductors' LLFY partners, including Bergquist Company, DENKA, Emerson & Cuming (Henkel), Laird Technologies and Supertex Inc., will present comprehensive competence and innovative prowess in the fields of optics, thermal management and electronics. OSRAM will showcase its state-of-the-art portfolio of LED products, including series of Golden DRAGON Plus, OSTAR-Lighting and Diamond DRAGON. Two luminaires, OSTAR-lighting-based Lotus 16 Watt LED Spotlights and Golden DRAGON-based RADIALUX lamps will also be highlighted in the booth.

Further information on LLFY is available at [www.ledlightforyou.com](http://www.ledlightforyou.com). Those wishing to discover more about OSRAM Opto Semiconductors and LLFY network should visit our booth at LF3017 of Japan Lighting Fair 2009.

**ABOUT OSRAM OPTO SEMICONDUCTORS**

OSRAM is part of the Industry sector of Siemens and one of the two leading lighting manufacturers in the world. Its subsidiary, OSRAM Opto Semiconductors GmbH in Regensburg (Germany), offers its customers solutions based on semiconductor technology for lighting, sensor and visualization applications. OSRAM Opto Semiconductors has production sites in Regensburg (Germany) and Penang (Malaysia). Its headquarters for North America is in Santa Clara (USA), and for Asia in Hong Kong. OSRAM Opto Semiconductors also has sales offices throughout the world. In the 2007 fiscal year (to the end of September) OSRAM Opto Semiconductors employed more than 4000 people and achieved sales totaling 520 million euros.
